DIRECTOR GENERAL'S MESSAGE

Dear Readers,

We come to NCHD's News Bulletin of Dec 2013 and Jan 2014.

Childhood is a critical stage of human development as significant brain development completes during the first three years of life. The interaction with the family and immediate environment shapes the child's development and learning. Preventing and improving early childhood education is the primary goal of NCHD.

Adult literacy is another area where we will invest our energies for imparting life skills to all those who have missed formal education. As you all know, learning is one of the key objectives of NCHD mission.

Khatun Parveen Khan
DG, NCHD

DO NOT LIMIT A CHILD TO YOUR OWN LEARNING FOR HE WAS BORN IN ANOTHER TIME.
