

Education

One of the prime mandates of NCHD is to help Pakistan achieve Millennium Development Goal-target of 86% literacy rates

Approach towards this:

- Ensuring that all children enroll in schools and retained in schools for the completion of full primary
- Dealing with the “back-log” of adult illiterates by implementing literacy programs in communities.

Universal Primary Education (UPE)

Situation of Primary Education in Pakistan is as under:

- Net enrollment rate is 66%

- Out of it, 40% children dropout before completing the primary schooling cycle
- Only one third of the children passing grade five achieve a minimum acceptable level of learning.
